PROFILE

Full Stack Developer with hands-on experience building responsive, scalable web applications using modern technologies like React, Node.js, and TypeScript. Strong background in product development, API integration, and database management with both SQL and NoSQL systems. Proven ability to deliver maintainable, secure, and high-performance solutions. Combines a product-oriented mindset with technical expertise gained through real-world projects and a previous role as a Product Owner in a fintech environment. Actively seeking opportunities in dynamic, collaborative development teams.

WORK EXPERIENCE

Freelance Full Stack Web Developer

January 2024 - Present

- Developed two full-stack websites for local businesses using React, Firebase, and Node.js, reaching over 3,000 visitors since launch.
- Integrated Firestore to store contact form data and implemented custom email notifications, enabling clients to manage over 100 customer inquiries efficiently.
- Embedded Google Maps API to dynamically display business locations and improve user experience.
- Delivered responsive UIs and iterated based on client feedback.
- Managed entire development lifecycle: planning, coding, deployment, and support.

InvertirOnline SAU

October 2022 - June 2025

Ssr Product Owner

- Led the launch of a Crypto App used by 1.5 million users, enabling multi-network operations (buy, sell, send, receive).
- Refactored deposit matching logic, reaching 99.5% accuracy and reducing errors.
- Directed the build of a bulk-adjustment tool for securities, dividends, and interest payments.
- Boosted money collection throughput 5x and automated reconciliations, saving 2+ admin hours daily.
- Prioritized features aligned with fintech and crypto goals using data-driven decisions and KPIs.
- Worked cross-functionally with dev teams and stakeholders to ship secure, high-impact solutions.

InvertirOnline SAU

October 2021 - October 2022

Operations Backoffice Team Leader

- Oversaw the execution and improvement of daily operations, supervising the settlement of over 50,000 trades per day.
- Supported and synchronized the team to handle increased responsibilities, including daily reconciliations and a higher volume of securities transfers.
- Automated key back-office processes, cutting down manual effort by over 3 hours per day, boosting team efficiency and focus.

InvertirOnline SAU

January 2020 - September 2021

Operations Backoffice Analyst

- Settled trades and transactions
- Managed daily cash flow and reconciliation of positions versus market
- Processed domestic and international securities transfers

Cencosud SA

August 2017 - November 2019

Accounting and Asset Valuation Analyst

- Performed cost accounting analysis
- Valued fixed assets and recorded depreciation
- Applied international accounting standards
